casino surveillance

Gaming Concepts supplies surveillance, access control and security solutions, using Asia's foremost surveillance equipment suppliers.

We supply systems not only to casinos, vip slot clubs, casino cruise ships and related venues but also commercial and retail spaces.

We have carefully selected the right equipment for today's venues with built in expandability features, which allow upgrades to new technologies as they occur.

Brand carried include: Pelco, Synetics Security Networks, Lenel Systems, Verint Systems, Network Video Technologies and Software House.

- security systems
- access control systems
- video transmission
- power supplies
- security & event management
- video management
- camera systems
